

# 👉 Introducing Kidnotes 👈

Kidnotes is designed for musicians who prepare music for beginning players (primarily piano students); it works with Coda's Finale™ as a replacement for the Petrucci™ music font that comes with the program. Here's a sample of the output:

Kidnotes comes with prepared templates for use with Finale, as well as instructions for installation (if the user wants to do a template from scratch).

It also includes a complete set of text characters based on the informal "vag rounded" typeface (this text is Kidnotes) and a variety of other musical and non-musical symbols. All four of the standard varieties—Plain, Oblique, Bold and Bold-Oblique are included.

The noteheads can be used in text passages as well: ♪ ♪ ♪ can be typed directly in a word processor. (You will not be able to set music in a word processor, however—Finale is required to create music scores.)

There are also "box" characters: [ ] that can be combined with letters **B**.

And finally, there is a full set of accidentals that can be used with the text characters:

$A\flat$ ,  $F\sharp$ ,  $C\sharp$  and so on. Plus a few dingbats, for fun: 👉 👈 ➡ ⬅ ⚠ ⚠

Kidnotes is available directly from DVM Publications for \$39.95 (+3.00 shipping/handling in the U.S./5.05 s/h outside of the U.S.). We are not a credit card vendor—this is a music engraving shop, primarily—so you will need to send a check, money order or school purchase order (US schools only). Be sure to specify Macintosh or Windows when you order. Our address is: DVM Publications • 104 Woodside Rd. • Suite A-202 • Haverford, PA 19041. For further information call or fax : 610-896-0996. Our managing editor can be reached online as splsm@aol.com.
